I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have been using a compounded prescription for over a year now that has totally changed my life. Symptoms I had suffered from for over 30 years have been relieved. For the first time I found something to relieve my "female ailments", depression, anxiety and various pains. I would be very unhappy to not be able to get this specially compounded medication at a reasonable price.
